

IDXAlert

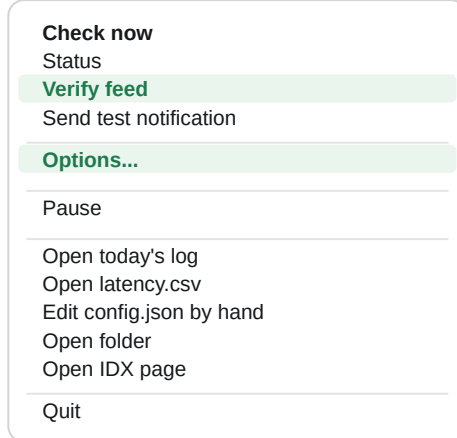

Alerts you when IDX publishes a disclosure from a company you cover.

1 Find it in the tray

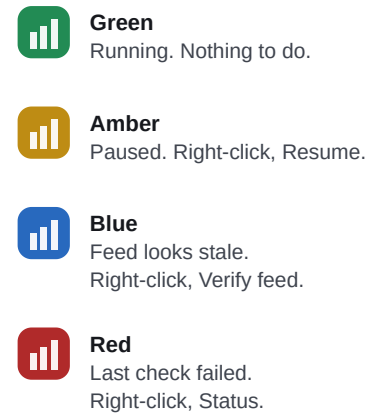

Click the chevron beside the clock. IDXAlert is the green bar chart.

2 Right-click the icon

Verify feed once. It should say it is reading the newest page. Then open Options.

3 What the icon means

OPTIONS, FILTERS TAB. TYPE YOUR TICKERS, TICK FOUR BOXES, SAVE.

IDXAlert 3.2, Options

Speed Alerts **Filters** Schedule Files Phone / Email Advanced

Only these tickers
comma separated. empty = every company on IDX

Title must contain
leave empty. you want everything these names file

Never alert on

- ☒ Structured Warrant
- ☒ Laporan Kepemilikan
- ☒ Bukti Iklan
- ☐ Obligasi / Sukuk
- ☒ ETF daily NAV
- ☐ Penghentian Sementara

Also exclude
comma separated. optional

Your coverage

Coal desk instead:
ADRO, ITMG, PTBA,
HRUM, INCO, ANTM,
MDKA, TINS

Not case sensitive

Matches inside words, so
excluding RUPS also kills
RUPST. Use long phrases.

These four cut about a third

of the feed. Leave the last two
off: bonds and suspensions are news.

Anything else you keep seeing

Copy the wording out of the popup
so it matches exactly.

Then the **Schedule** tab, tick **Start automatically when I log in**. Settings save instantly, no restart.

WHEN IT FIRES

Left-click a row opens the PDF. The window stays open.

Right-click or X closes it. It never closes by itself.

Several files click to pick one, or Open all.

IF IT GOES WRONG

No alerts Filters too tight. Empty both boxes, confirm alerts start, then add back one at a time.

Too many Tick the four boxes. Narrow your ticker list.

Red icon Usually the VPN. Try it off.

Double alerts Two copies running. Quit both, start one.

The one thing to know. The time on each row is **when the company filed**, not when you were told. IDX publishes in batches on the hour and half hour, about 18 minutes after filing. IDXAlert reaches you under a minute after that. A row showing 19:13 at 19:30 is working correctly.
